# EZ Quick Access

Quick and easy optional software that can input image files to the EZ Controller

●●● System configuration

Input hot folder
(shared folder)

EZ Quick Access

EZ Controller

Input hot folders are shared folders to be created on either external PC or the EZ Controller PC.

Install the "EZ Quick Access" to the external PC.

External PC
（Windows / Mac）

Ethernet

EZ Controller PC

NORITSU
Printer

## ●●● Features

#1
Easy operation
· Images can be read to the EZ Controller easily just by copying the image files to the input hot folders (shared folders).

#2
Support various image file types
· Not just famous files such as JPEG, BMP, TIFF, but PSD, PNG, RAW files can be read.
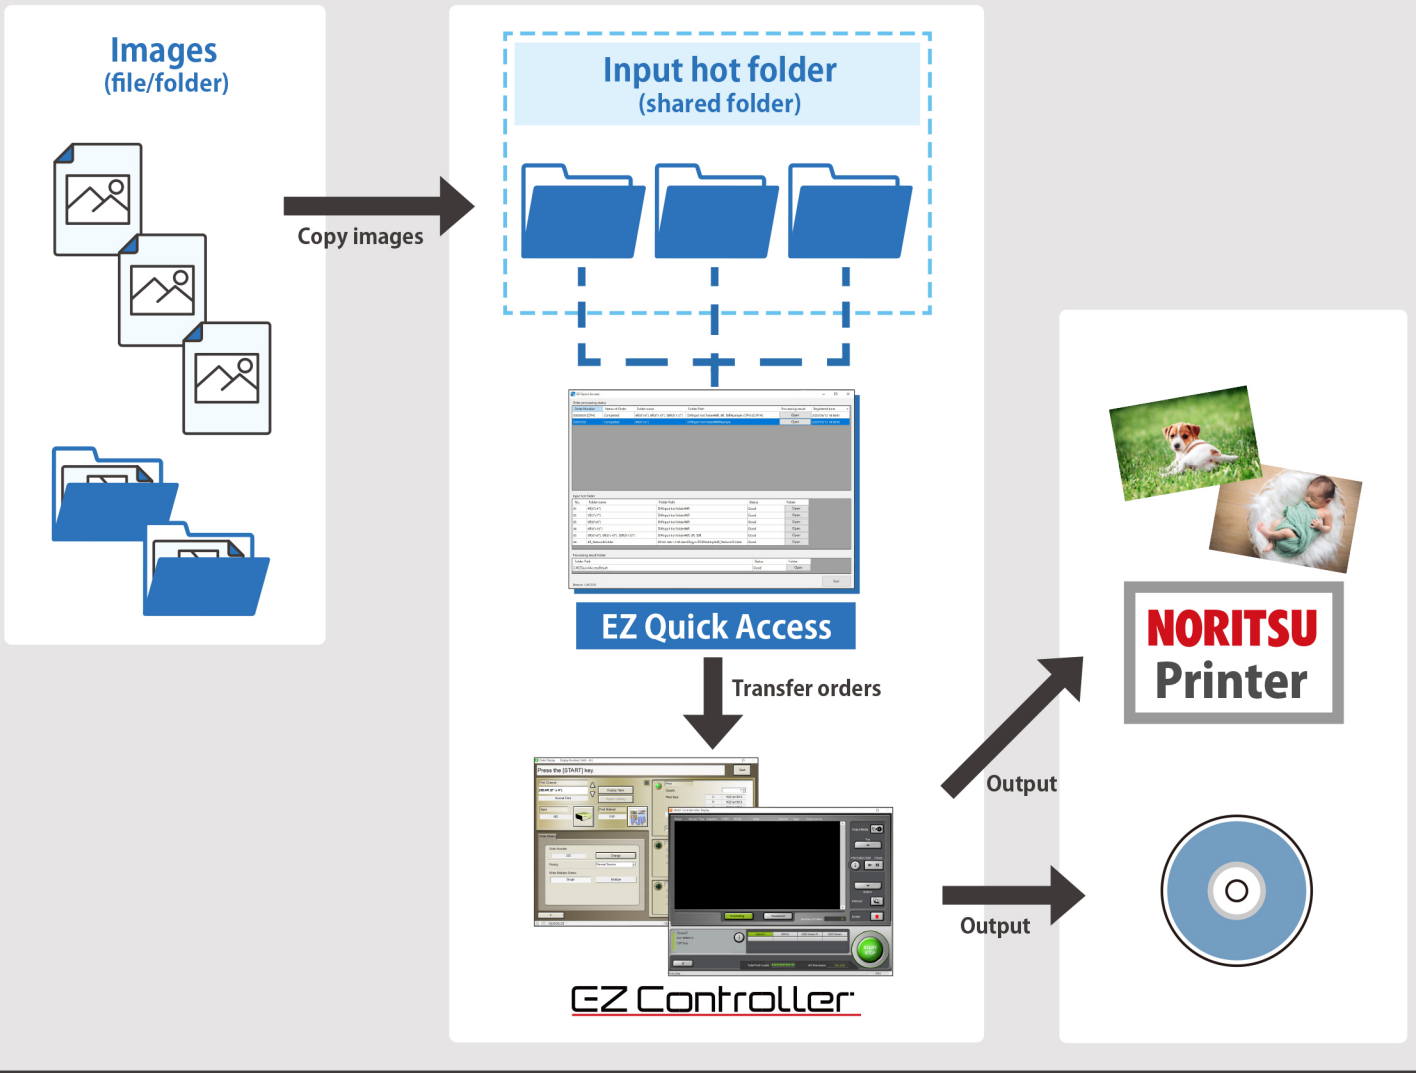

JPEG BMP TIFF PSD PNG

#3
Optimize print tasks
· Both Windows PC and macOS can be used for the external PC.
· Image files can be input from multiple external PCs.
· Prints can be processed without operating the EZ Controller PC.

Mac Win
